- For Licensee's internal business purposes (no managed service / hosting for third parties).

Use beyond licensed scope requires an updated Order Form or written authorization.

5. Ownership & Intellectual Property

Licensor retains all right, title, and interest in and to the Software, Documentation, and all related intellectual property rights. Any feedback provided by Licensee may be used by Licensor without restriction or obligation.

8. Security & Usage Data

Licensee is responsible for securing its environment, credentials, and network access. To the extent the Software generates logs or telemetry (e.g., for diagnostics, licensing, or audit), such data will be limited to what is reasonably necessary for operation, security, compliance, and support, and handled in accordance with any applicable data protection terms.

9. Term & Termination

- Upon request, certify in writing that the foregoing has been completed.

10. Audit Rights

With reasonable notice and during normal business hours, Licensor may audit Licensee's use of the Software to verify compliance with licensed scope and restrictions. Licensee will reasonably cooperate. If an audit reveals material non-compliance, Licensee will promptly pay applicable additional fees and Licensor's reasonable audit costs.
